Home of Registered **LaMancha** dairy goats since 1981 with a 10 year break. We collected embryos from the herd before the break and are now bringing them to life to continue with our bloodlines.

Our herd is on 305 Official Milk Test, Classified yearly and we participate in CGS Sanctioned Shows in order for us to have proof of the high standard that we strive for.

We breed for healthy, productive, stylish animals, with all kids born raised on pasteurized colostrum and milk.

Excess milk is used to feed pigs and calves which are sold when ready to go to market.
